Transform Your Cash Handling

The latest RCS 400 2.0 transforms your cash handling into smart cash management, improving your business at all levels. The minimalistic design together with the latest best-in-class technology and unique software connection, make the RCS 400 2.0 one of the strongest back office solutions on the market.

Turn Cash into Real Value

The RCS 400 2.0 improves the already very popular RCS 400 coin recycler for back office operations within retail, leisure and public transport. Make this smart solution part of your daily operations and decision makings, instead of spending hours on administration and counting. This ensures quick return of investment through dramatically improved cash management. Feel safe with proven and best-in-class technology and system.

Connect RCS 400 2.0 to a note unit for complete cash automation

The RCS 400 2.0 is the first choice for the retail, leisure and public transport sector.

- Withdraw float for day
- Customer transaction
- Internal Cash Flow
- Deposit cash at end of day
- Remove excess cash
- CIT Cash Flow
- CIT cash processing
- Float delivery

Explore an Efficient Cash Cycle all the Way Around

The steady flow of cash into the back office needs to be counted, allocated and secured quickly and efficiently. With the RCS 400 2.0 you take control of the cash through an efficient cash cycle all the way around, from internal cash handling to CIT operations. This ensures both time and cost savings, as well as an increased customer service.
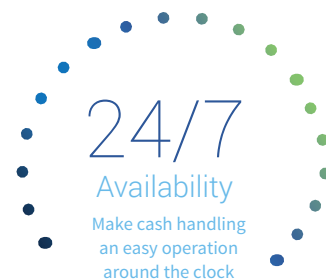

Superior Financial and Operational Control

The RCS 400 2.0 works seamlessly with the unique monitoring software solution, SoftOne Intelligence. The solution is the ultimate management platform for superior financial and operational control of cash. The cash solution is also connectable to any existing network and can be monitored from any remote position. Maximize the value of your business and benefit from best-in-class cash handling technology and system.

- ► ERP integration
- ► CIT integration
- ► Report generation
- ► POS Integration

- ► Financial control
- ► Monitoring for maximum uptime
- ► Automatic reconciliations
- ► Connected to all devices 24/7
