RCS-800 & RCS-900
The Totally Automated Recycling Solution

Lower Costs by 30%
Optimise your cash management to get the most out of your work force

cashcomplete.com
Transform Your Cash Handling

The high costs of cash operation together with increased competition within the retail sector makes it more important than ever to optimize the business. The steady flow of cash into the back office needs to be counted, allocated, secured and reconciled - cumbersome and time consuming processes. Explore true cash management with increased customer service and security through a complete cash handling solution.

Explore an Efficient Cash Cycle all the Way Around

The cash recycling with CIT integration optimizes the level of cash in-store and decreases the need of services and manual labour dramatically. Make this the smart solution part of your daily operations and decision makings, instead of spending hours on administration and counting. In this way you can keep the focus on the true value of your business – the customers. Furthermore, the solutions ensures quick return of investment through dramatically improved cash management. Feel safe with proven and best-in-class technology and system.

Turn Cash into Real Value

The RCS-800 transforms your cash handling into smart cash management, improving your business at all levels of the company. With the Retail Cash Solution you take control of the cash through an efficient cash cycle all the way around, from internal back office cash handling to CIT operations. The processing of cash is fully automated including creating floats at the beginning of the day to counting cash and reconciliation of the daily takings.

Superior Financial and Operational Control

The cash solution works seamlessly with the unique monitoring software solution. The solution is the ultimate management platform for superior financial and operational control of cash. The cash solution is also connectible to any existing network and can be monitored from any remote position. Maximize the value of your business and benefit from best-in-class cash handling technology and system.
